ABOUT THE COMPANY

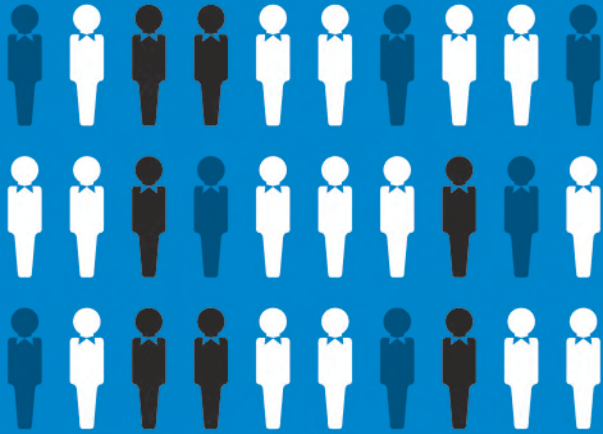

In less than a decade Advanced & Best Construction Pte Ltd began its foray into the business of project management and construction related activities. Now within this short period of time, it is known as a company of reputation, built upon the solid building blocks of transparency and progressiveness. One of the main reasons for success is our unique and flexible way of functioning which allows us to adapt to the exact nature of any project in a relatively shorter span of time. This flexibility has given us the ability to develop a deeper insight into handling construction projects of various kinds and sizes.

The management team consists of industry leaders from construction, engineering and service sector, the team is committed to the growth of the company. They fully understand the importance of a strong and dedicated team to work with them.
